🎓 Experienced Tutor | Seoul National University | MSc in Biology

With 15 years of experience teaching IB, A-Level, and IGCSE Biology, and an MSc in Biology from Seoul National University, I specialise in helping students from various academic backgrounds master complex biology topics.

Teaches: IB Biology A-Level Biology IGCSE Biology GCSE Biology

Curriculum: IB A-Level GCSE IGCSE

## Qualifications

**Seoul National University:** MSc in Biology (2006–2008)

**KAIST:** BSc in Biological Sciences (2002–2006)

## Vetted Tutor

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

With over 15 years of tutoring experience, I have had the opportunity to guide students from different educational systems, including IB, A-Level, and IGCSE, in mastering biology. My students have gone on to achieve excellent results in their exams, and I take pride in their success. I have worked with learners across various countries, helping them understand topics ranging from cellular biology to environmental science.

In addition to my classroom experience, I have also been involved in curriculum development, ensuring that the materials I use are up-to-date and align with the latest exam standards. Whether it's helping students prepare for university entrance exams or simply building their confidence in the subject, I aim to provide a well-rounded approach to learning biology.

I've developed unique strategies for simplifying complex biological processes and guiding students through difficult topics. This has proven to be an invaluable asset, especially for those preparing for the rigorous demands of IB Biology and other advanced qualifications. My goal is always to foster a deep understanding of the subject while ensuring students are exam-ready.
